# FleXi Blind Panel S

6HP – 12HP

Thank you for purchasing FleXi Blind Panel. Now you can fill each space from 6HP to 12HP in 3U eurorack case. FleXi Blind Panel is made from lightweight aluminum with quality powder coat.

FleXi Blind Panel consists from two parts. These parts can be used together as is shown on picture. Also they can be used as two independent 6HP blind panels.

Installation is easy. Just set panel as is shown on picture. Set panel as wide as you need. At the end, fasten the panel with attached screws and washers. If you need to adjust width of panel, just release screws, set new width and fasten the screws.
